Enrolment No. _____

GUJARAT TECHNOLOGICAL UNIVERSITY

BE - SEMESTER-VIII (NEW) - EXAMINATION – SUMMER 2018

Subject Code: 2180903

Date: 04/05/2018

Subject Name: Power System Planning and Design

Time: 10:30 AM to 01:00 PM

Total Marks: 70

Instructions:

1. Attempt all questions.
2. Make suitable assumptions wherever necessary.
3. Figures to the right indicate full marks.

MARKS

- | | | | |
|------------|------------|--|-----------|
| Q.1 | (a) | Discuss touch potential | 03 |
| | (b) | Write a note on Corona. | 04 |
| | (c) | What is lamp flicker? Discuss its classification. What are the remedies for reducing lamp flicker. | 07 |
| Q.2 | (a) | Explain BIL. | 03 |
| | (b) | Why transmission should be carried out at high voltages? | 04 |
| | (c) | Explain working principle and location of Lightning Arrester. | 07 |

OR

- | | | | |
|------------|------------|--|-----------|
| | (c) | State and explain Kelvin's law for the most economical cross section of conductor. | 07 |
| Q.3 | (a) | Explain step potential. | 03 |
| | (b) | What is interconnection? Write a short note. | 04 |
| | (c) | Write a note on selection of size and location for power plants. | 07 |

OR

- | | | | |
|------------|------------|---|-----------|
| Q.3 | (a) | Explain SIL. | 03 |
| | (b) | Discuss protective margin. | 04 |
| | (c) | Discuss the power system improvement scheme in detail. | 07 |
| Q.4 | (a) | How the size of distributors is calculated? | 03 |
| | (b) | How generation planning is carried out? | 04 |
| | (c) | Discuss classification of distribution systems with neat diagrams. What are the advantages and disadvantages of each? | 07 |

OR

- Q.4** **(a)** Explain load forecasting. **03**
- (b)** Discuss various voltage ratings to be taken into account while selecting the lightning arrestors. **04**
- (c)** Explain the design of earthing grid. **07**
- Q.5** **(a)** Explain radio and television interference. **03**
- (b)** What is earth resistance? Explain voltmeter – ammeter method to measure it. **04**
- (c)** Discuss various considerations in the size and location of substations. **07**

OR

- Q.5** **(a)** What are sag templates? **03**
- (b)** What is insulation coordination? **04**
- (c)** Explain the methods of designing primary distribution system with reference to (1) Choice of voltage (2) Conductor size (3) Type of distribution system (4) Voltage drop. **07**
