	(b)	What are the factors you would consider for planning a warehouse for	07				
		fruits and vegetables?					
Q.5		CASE STUDY:	14				
		A martin Inc, based at Chicago in the state of Illinois, was distributing an extensive line of business office products, such as office stationary, which					
		included grades of paper, envelopes, ribbons, staplers and other accessories.					
		The company was distributing this in a wide area with adequate no. of					
		salesmen to look after the territory. The company felt that to make the training					
		effective, it was essential to emphasize on, A-C-M-E-E (Aim, Content,					
		Methods, Execution & Evaluation). The various types of training imparted by					
		the company was in the form of lectures, personal conferences,					
		demonstrations etc. To train the salesman of the company, the chairman					
		proposed the method of centralized training through the district manager of the company. This was to provide better quality training by giving uniform					
		and identical, training. Centralized training will also hold higher prestige in					
		the minds of salesmen. By centralized training at headquarters, better facilities					
		can be provided to the trainees. Before the programme was implemented,					
		suggestions came from other executives who suggested decentralized training					
		in various territories which would be more realistic.					
		Briefly Explain:					
		a). Which other methods of training were possible?b). Which method of training was more realistic & why?					
		OR					
Q.5		India tour to study the Sales & Distribution system. He is currently in Delhi	14				
Q.		and is faced with some problems. Delhi is an important market for Ras					
		Beverages but the sales for the region has been on a constant decline since the					
		last 2 years. The market has four sales representatives with each one handling					
		different sub-markets and stockist. All four of them were reporting to one					
		Territory Sales Manager. From the market visit, Subir found discrepancies in					
		allocation of selling effort; demotivated sales force, conflict with stockists					
		over division of territory and improper market coverage. If you were Aryaman Singh, what would be your recommendation and solution in the form of Sales					
		& Distribution Strategy for Ras Beverages Delhi Market?
